# *THE CHURCH OF CHRIST* *at Granbury Street*

April 5, 2023

Dear Brethren,

We are excited to announce our upcoming Seminar with Dr. Jeff Miller from Apologetics Press. He will be with us May 12<sup>th</sup> through the 14<sup>th</sup>, presenting a series of lessons on the theme: "Christians Can Be Confident About Creation." We hope that you will make plans to attend all, or at least part, of these lessons and be edified with us.

Jeff Miller is a scientist as well as a preacher. He is a biomechanical engineer and holds an earned B.S. degree in Physical Science from Freed-Hardeman University, as well as B.S. and M.S. degrees in Mechanical Engineering from the University of Texas at Arlington (UTA) with emphases in Thermodynamics and Bio-thermal Science, Bio-transport Phenomena, and Biomechanics. He also holds an earned Ph.D. in Mechanical Engineering from Auburn University, with an emphasis in Navigation and Control of Biological Systems.

He currently teaches Christian Evidences for Bear Valley Bible Institute and serves as the full-time science writer at Apologetics Press in Montgomery, AL, as well as the Associate Editor of the monthly Christian evidences journal, "Reason & Revelation" and the editor of the A.P. Bible Class Curriculum. He is the author of several books, including "Flooded" and "Science vs. Evolution."

You will surely benefit from hearing Brother Miller's insightful and knowledgeable presentation of Bible truth. This series of lessons will address several pressing questions, beneficial for new as well as seasoned Christians. These are topics we believe will become more important for the church to deal with as society moves further away from a Biblical worldview.

We ask that you make your membership aware of this special event in your announcements and please post the attached flyer. We are thankful for your participation and our joint fellowship in the body of Christ. We look forward to having you visit with us.

In His Service,

John Haffner

# Christians Can Be Confident About Creation

## Session I: The Evidence Points to God

*Belief in the existence of God is not a "blind faith."*

## Session II: Which God Exists?

*It's one thing to prove a god exists, but how can we know which One?*

## Sessions III-IV: The Biblical Creation Model

*What do the Bible and modern science tell us about the true history of the Universe?*

## Session V: Is Creation Scientific?

*What scientific predictions does the Creation Model make about the Universe, and are there evidences to support its predictions?*

## Session VI: Is Creation Scientifically Defensible?

*Can modern attacks against biblical Creation and the Flood be sustained when examined fairly?*

## Session VII: Why Become A Christian?

*In a day when God and His Word are scoffed at and attacked by the naturalistic community, why would anyone want to be a Christian?*

Dr. Miller is a biomechanical engineer and holds an earned B.S. degree in Physical Science from Freed-Hardeman University, as well as B.S. and M.S. degrees in Mechanical Engineering from the University of Texas at Arlington (UTA) with emphases in Thermodynamics and Bio-thermal Science, Bio-transport Phenomena, and Biomechanics. He also holds an earned Ph.D. in Mechanical Engineering from Auburn University, with an emphasis in Navigation and Control of Biological Systems.

For more information  
please call:

**817-517-7713**

He has presented research in technical science conferences across the country, has published research internationally in peer-reviewed technical science journals, and is an active and recognized member of the scientific community, being a member of the American Society of Mechanical Engineers, the National Society of Professional Engineers, the American Association for the Advancement of Science, the Creation Science Fellowship, and the Creation Research and Creation Biology Societies. While at Auburn University, he also served as a course instructor, teaching courses in Thermodynamics, Fluid Mechanics, and Heat Transfer, as well as Statics and Dynamics. Dr. Miller has participated in several Creation geologic expeditions with leading Creation geologists in Wyoming, studying seismites in the Lance Formation and dinosaur fossil beds, in several states studying rapid cave formation, and at the Grand Canyon, studying evidences of the Canyon's rapid formation and carving during and after the biblical Flood. He currently teaches Christian Evidences for Bear Valley Bible Institute and serves as the full-time science writer at Apologetics Press in Montgomery, AL, as well as the Associate Editor of the monthly Christian evidences journal, *Reason & Revelation*, and the editor of the A.P. Bible Class Curriculum. He is the author of several books, including *Flooded* and *Science vs. Evolution*.
