## PREACHING IN THE SOUTH PACIFIC

I am just back from a long preaching trip in the South Pacific nations of New Zealand and Fiji. These countries are dear to my heart. Our family lived in both, and our three children were born in New Zealand.

First, I went to help a congregation in Tauranga, New Zealand. The preacher there, **John Redmayne**, needs relief because of a serious eye disease. It is already difficult for him to study and prepare lessons. Unfortunately, this problem is predicted to become worse, not better. I stayed with John and his wife, **Dee**. They took *extremely* good care of me! We traveled to Hamilton one Saturday to visit with Christians I knew from long ago when my family lived in that city. On another occasion they loaned me a car so I could visit good friends in a couple of other North Island towns. I drove to New Plymouth to see **Alan Fowell**. He, as a teenager, was one of our early converts in Hamilton. Now, in New Plymouth, he preaches for a strong, very active congregation. It is probably the largest congregation of the church in the country. From there I moved on to Raglan where I

visited **Robbyn Storey** and her husband, **Pete**. Robbyn was the five-year-old daughter of our first converts in Hamilton, **Clyde** and **Allison Reid**. It doesn't seem possible, but she now has several grandchildren of her own. Robbyn and Pete are our good friends. They love to travel, and we hope to see them someday in Dallas.

The Greerton Road church in Tauranga is likely to need help for a long time. I hope I can continue to be a part of this in the days ahead. Please pray for John Redmayne.

In Fiji, the international airport is at Nadi. This is only a three-hour flight from Auckland. From Nadi, thirty minutes on a small plane will get you to the capital, Suva, on the other side of the island. The church there began as a result of Bible correspondence courses sent from New Zealand. We made trips to study with some of the students and the first baptisms were on a trip **Dan Jenkins** and I made late in 1963. It was wonderful to visit with Christians and preach in the Suva area. A convert from many years ago, who does some preaching himself, **Vilikesa Wasasala**, arranged my preaching and teaching schedule and provided my transportation. One of my Sundays there I preached for the extremely impressive congregation in Deladenamu village, about twenty-five miles from the city. I remember when that work was first started many years ago, also a result of the Bible correspondence course. **Robert Martin** and his family lived in Fiji for a long time. Many of the good things we see now are a result of their work. Robert still visits occasionally.

---

My next trip will be in the summer to India.

Please continue to pray for the nation of Ukraine. Especially for our brothers and sisters there.

Your coworker,

*Ronald Coleman*

# Christians Can Be Confident About Creation

## Session I: The Evidence Points to God

*Belief in the existence of God is not a "blind faith."*

## Session II: Which God Exists?

*It's one thing to prove a god exists, but how can we know which One?*

## Sessions III-IV: The Biblical Creation Model

*What do the Bible and modern science tell us about the true history of the Universe?*

## Session V: Is Creation Scientific?

*What scientific predictions does the Creation Model make about the Universe, and are there evidences to support its predictions?*

## Session VI: Is Creation Scientifically Defensible?

*Can modern attacks against biblical Creation and the Flood be sustained when examined fairly?*

## Session VII: Why Become A Christian?

*In a day when God and His Word are scoffed at and attacked by the naturalistic community, why would anyone want to be a Christian?*

Dr. Miller is a biomechanical engineer and holds an earned B.S. degree in Physical Science from Freed-Hardeman University, as well as B.S. and M.S. degrees in Mechanical Engineering from the University of Texas at Arlington (UTA) with emphases in Thermodynamics and Bio-thermal Science, Bio-transport Phenomena, and Biomechanics. He also holds an earned Ph.D. in Mechanical Engineering from Auburn University, with an emphasis in Navigation and Control of Biological Systems.
